PRODUCT  
UPDATE

## Supplier of the Month – Milestone

Milestone are based out of Copenhagen Denmark and are a global leader of Video Management Software systems. XProtect starts at Essential+ for small systems all the way up to multiple sites with Corporate.

Milestone XProtect supports over 13,000 different devices and offers integration into Access Control, Intruder, ANPR and many other opportunities with their solution technology partners.

In addition to the VMS, Milestone also offer storage servers for your recording requirements.
