Milestone 2023 R1 update

Operator Enhancements
The 2023 R1 software update offers significant enrichments to the user experience, operator collaboration, and situational awareness
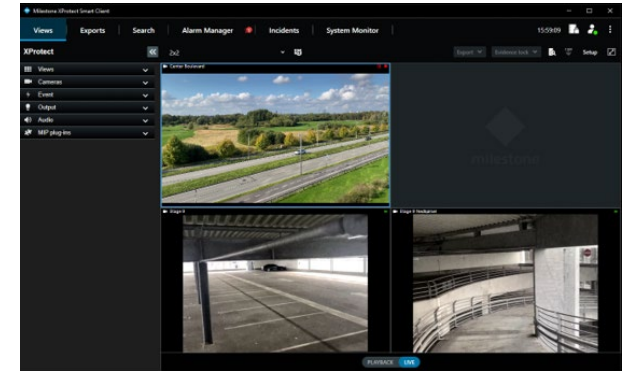

Easy Video Data Sharing
The Background Picture in Picture feature allows operators to keep an eye on a particular camera while performing other tasks, ensuring continuous situational awareness

Fast, Efficient Installations
The software update includes a better installation experience, such as the availability of a system prerequisite check, SQL Database backups, and faster installation times

New XProtect Webhooks
With XProtect 2023 R1, rules in Management Client now support the webhooks action

Defender

- Low cost Security Fogging device
- Blue smoke to differentiate from fire
- $100M^3$ in 25 seconds
- Dual tampers
- Can be triggered remotely
- Comes with replacement cannister
- Compact design (110x190x130mm)
- Complies with BS EN50131-10-2014
