NEW PRODUCT UPDATE

Optex FlipX promotion
Buy 10 get 1 free

FlipX is the new generation of indoor PIR detectors with pyroelectric element and rotatable lens. By simply removing the case and flipping the lens 180° you can change the detection area from 85° wide for covering large open spaces to just 5° for covering narrow passages or windows both in residential and commercial settings.

FlipX Standard
Hardwired indoor PIR with rotatable lens
Wide detection up to 12m, 85° and narrow detection up to 18m
Superior pet tolerance with new pyroelectric element
Variable high mount 2-3m

FlipX Professional
Hardwired indoor Grade 2 PIR with rotatable lens
Wide detection up to 15m, 85 ° & narrow detection up to 24m
Double conductive shielding for visible light/RFI protection
Variable high mount 2-3m

FlipX Advanced
Hardwired indoor Grade 3 PIR with rotatable lens
Wide detection up to 15m, 85° & narrow detection up to 24m
Super sensitivity settings for higher detection performance
IR antimasking
